EXPERIENCE

Full Stack Developer

Jul 2025 – Present

Devista Consulting · Bucharest, Romania

- Built a **backoffice dashboard** for client management — client/consultant overviews, project-specific data, and interactive charts for business insights
- Delivered key features for **CampionPlus** insurance app: integrated a new buy-travel-policies flow and revamped the buy-RCA flow via **24Broker API** integration
- Created a **WhatsApp chatbot** (via Make.com) for customer support — role-aware and context-aware responses to reduce support team workload
- Designed a **data lake architecture** pulling weekly data from 24Broker with automated cleaning, export pipelines, and PowerBI-ready output for executive dashboards
- Instrumented the entire app with **Google Analytics events** to surface user behavior insights and identify conversion drop-off points
- Managed **CI/CD deployments** across development, staging, and production environments; triaged and resolved production bugs

Java, Spring Boot, Angular, TypeScript, PostgreSQL, Ionic 8, Capacitor 7, Docker, AWS, Liquidbase, Make.com

Freelance Full Stack Developer

Dec 2022 – Jul 2025

CleanCodeDevelopment · Bucharest, Romania

- Led development of an EU-funded digital twin platform for Bucharest Sector 2, integrating PostGIS spatial data with Mapbox and real-time CO2 monitoring dashboards
- Architected a project management SaaS following DDD principles — features role-based access, time tracking with legal compliance checks, automated contract generation, and budget planning
- Built a full-stack e-learning platform (CleanCodeQuest) with CodeWars API integration, gamified leaderboards, admin panel, and automated attendance via Java scheduler
- Mentored junior developers and served as team lead across multiple concurrent projects

Java, Spring Boot, React, TypeScript, PostgreSQL, PostGIS, Tailwind CSS, Docker, AWS, Flyway, Quartz

Full Stack Developer

Apr 2024 – Jul 2024

Magic Hub Romania · Bucharest, Romania

- Maintained and modernized legacy web applications built with PHP, HTML, and CSS
- Developed a tattoo studio website with an advanced price configurator based on difficulty and options (magictattoo.ink)
- Refactored and polished the Magic Academy landing page for improved UX and performance
- Managed internship program and implemented new features from client/stakeholder requests

PHP, Laravel, JavaScript, CSS, Tailwind, HTML

EDUCATION

Codecool Talent Hub

Full Stack Developer (Training)

Dec 2022 – Mar 2024

Codecool Talent Hub · Bucharest, Romania

- Completed intensive full-stack developer program simulating real job environments with mentorship, pair programming, and code reviews
- Built full-stack applications including a restaurant discovery platform and an anime tracking platform using Java, Spring Boot, React, and PostgreSQL

Java, Spring Boot, JavaScript, React, PostgreSQL

KEY PROJECTS

CampionPlus — Android / iOS

Insurance marketplace and digital wallet app for Campion Broker clients. Search, compare, and purchase insurance policies (travel, RCA), manage policy portfolios, and communicate directly with dedicated consultants.

Project Management Platform — Live

DDD-based SaaS for teams to manage projects, work packages, and tasks. Features automated contracts, time-tracking with legal compliance, budget optimization, and Quartz-scheduled operations.

Primaria Sector 2 Digital Twin — Live

EU-funded urban digital twin with real-time air quality monitoring, CO2 emission calculations, and future pollution scenario modeling. Built with PostGIS for spatial data storage and Mapbox for map visualization.

Bradulaw — Live

Responsive law firm website with dynamic content, modern design, and cross-browser optimization. Hosted on Firebase.
